the revolutionary war the making of america retells the story of the american revolution in a way that captures your attention and is as educational as it is entertaining this book covers the events of the american revolution but also their cultural and historical significance this book also overviews the most important players on both sides of the conflict and pays special attention to the key figures who led this military and political struggle and went on to found the american republic millions of words have been spilled in discussions of the american

revolution it might make you wonder how does this small book make any difference the difference i hope to make is to introduce you to the revolution at breakneck speed don t be fooled by the size of this book it s small but it s still packed with information that other books tend to forget this book does not seek to add something new to our understanding of the revolution nor does it review the events from a perspective that has never been considered instead the making of america should be read as an easy to read reference point that contains from cover to cover everything you need to know about the american revolution

influential 1851 work the basis for later radical and anarchist theory posits an ideal society in which frontiers are abolished national states eliminated and authority decentralized among communes or locality associations

published in 1790 two years before the start of the terror this work offered a remarkably prescient view of the chaos that lay ahead a classic of political science and a cornerstone of modern conservative thought it articulates a defense of property religion and traditional values that resonates with modern readers

explore the pivotal years leading up to the american revolution in carl becker s the eve of the revolution a chronicle of the breach with england part of the esteemed chronicles of america series this volume delves into the complex factors that strained the relationship between colonial america and the british empire uncover the underlying tensions and escalating conflicts that propelled the colonies toward independence becker meticulously examines the political social and economic forces at play during this critical period of pre revolution america from 1775 to 1783 gain insight into the causes of the revolution and understand the perspectives of both the colonists and great britain a valuable resource for anyone interested in united states history particularly the revolutionary and colonial periods the eve of the revolution offers a concise and insightful chronicle of the events that shaped a nation this meticulously prepared print republication ensures the enduring accessibility of this classic historical account this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

a fresh lively and stimulating set of essays english historical review this collection of essays provides a new introduction to the revolutions of 1848 in that year europe s traditional order broke down dramatically across much of the continent well known experts in the field provide a colourful account of the events themselves and demonstrate their profound significance for the development of modern european politics

this book discusses the revolutionary broadening of concepts of freedom of press and freedom

of speech in great britain and in america in the late eighteenth century in the period that produced state declarations of rights and then the first amendment and fox s libel act the conventional view of the history of freedoms of press and speech is that the common law since antiquity defined those freedoms narrowly and that sir william blackstone in 1769 and lord chief justice mansfield in 1770 faithfully summarized the common law in giving a very narrow definition of those freedoms as mere liberty from prior restraint and not liberty from punishment after something was printed or spoken this book proposes to the contrary that blackstone carefully selected the narrowest definition that had been suggested in popular essays in the prior seventy years in order to oppose the growing claims for much broader protections of press and speech blackstone misdescribed his summary as an accepted common law definition which in fact did not exist a year later mansfield inserted a similar definition into the common law for the first time also misdescribing it as a long accepted definition and soon misdescribed the unique rules for prosecuting sedition as having an equally ancient pedigree blackstone and mansfield were not declaring the law as it had long been but were leading a counter revolution about the breadth of freedoms of press and speech and cloaking it as a summary of a narrow common law doctrine that in fact was nonexistent that conflict of revolutionary view and counter revolutionary view continues today for over a century a neo blackstonian view has been dominant or at least very influential among historians contrary to those narrow claims this book concludes that the broad understanding of freedoms of press and speech was the dominant context of the first amendment and of fox s libel act and that it enjoyed greater historical support

new york times bestseller an elegant synthesis done by the leading scholar in the field which nicely integrates the work on the american revolution over the last three decades but never loses contact with the older classic questions that we have been arguing about for over two hundred years joseph j ellis author of founding brothers a magnificent account of the revolution in arms and consciousness that gave birth to the american republic when abraham lincoln sought to define the significance of the united states he naturally looked back to the american revolution he knew that the revolution not only had legally created the united states but also had produced all of the great hopes and values of the american people our noblest ideals and aspirations our commitments to freedom constitutionalism the well being of ordinary people and equality came out of the revolutionary era lincoln saw as well that the revolution had convinced americans that they were a special people with a special destiny to lead the world toward liberty the revolution in short gave birth to whatever sense of nationhood and national purpose americans have had no doubt the story is a dramatic one thirteen insignificant colonies three thousand miles from the centers of western civilization fought off british rule to become in fewer than three decades a huge sprawling rambunctious republic of nearly four million citizens but the history of the american revolution like the history of the nation as a whole ought not to be viewed simply as a story of right and wrong from which moral lessons are to be drawn it is a complicated and at times ironic story that needs to be explained and understood not blindly celebrated or condemned how did this great revolution come about what was its character what were its consequences these are the questions this short history seeks to answer that it succeeds in such a profound and

enthraling way is a tribute to gordon wood s mastery of his subject and of the historian s craft

an historical classic reflections on the revolution in france is a pamphlet written by irish statesman edmund burke in 1790 it is considered a political theory classic details includes images of the french revolution

more than two hundred and fifty years after the revolution began fire and freedom invites readers to rediscover america s journey to independence showcasing new york s central role in the revolution fire and freedom highlights the stories of people and events previously hidden from popular view unveiling a new vision of this famous narrative many of the revolution s key moments can be traced to new york city crowds rioted against colonial taxation and george washington spent one third of the war in and around the soon to be empire state beyond these well known players and moments however lies a trove of new information on new york s hidden revolutionary stories with a foreword by acclaimed historian russell shorto and seven fascinating chapters on a range of subjects we see that events off the battlefield a strategic retreat a destructive fire and displays of independence were just as meaningful as the fighting itself state power and politics redefined conceptions of loyalty and allegiance the resistance and agency of indigenous and enslaved populations shaped new york s postwar era these diverse stories are tied together by the defining war but they stretch far beyond its confines and even further beyond our common understandings by providing a more comprehensive look into new york s influence on the era the contributors to this book expand and evolve the meaning and significance of the revolution exciting and insightful fire and freedom is a must read addition to the great revolutionary saga

a major intellectual history of the american revolution and its influence on later revolutions in

Europe and the Americas the expanding blaze is a sweeping history of how the American Revolution inspired revolutions throughout Europe and the Atlantic world in the eighteenth and nineteenth centuries. Jonathan Israel, one of the world's leading historians of the Enlightenment, shows how the radical ideas of American founders such as Paine, Jefferson, Franklin, Madison, and Monroe set the pattern for democratic revolutions, movements, and constitutions in France, Britain, Ireland, the Netherlands, Belgium, Poland, Greece, Canada, Haiti, Brazil, and Spanish America. The expanding blaze reminds us that the American Revolution was an astonishingly radical event and that it didn't end with the transformation and independence of America. Rather, the revolution continued to reverberate in Europe and the Americas for the next three quarters of a century. This comprehensive history of the Revolution's international influence traces how American efforts to implement radical Enlightenment ideas, including the destruction of the old regime and the promotion of democratic republicanism, self-government, and liberty, helped drive revolutions abroad. As foreign leaders explicitly followed the American example and espoused American democratic values, the first major new intellectual history of the Age of Democratic Revolution in decades, the expanding blaze returns the American Revolution to its global context.

explores the Revolutionary War in New York, highlights the battle fought there, and introduces notable people including Ethan Allen, General Howe, and George Washington.
